

New Millennium Secondary School A-G Completion Improvement Grant Plan

| Local Educational Agency (LEA) Name | Total Grant Allocation |
|-------------------------------------|------------------------|
| New Millennium Secondary School | \$ 241,929 |

Plan Descriptions

A description of how the funds will be used to increase or improve services for foster youth, low-income students, and English learners to improve A-G eligibility

With these funds, New Millennium plans to increase their support systems such as ThinkCerca, One-on-One Tutoring Program; Small Group Tutoring Program (Learning Loss Tutoring), READ 180, APEX, Edgenuity, NWEA Internal Benchmark System. These systems will increase learning opportunities and time spent one-on-one with the support provider. Extra classroom time is important since students have come back from an exceedingly long time of distance learning. These programs will increase engagement from students in a smaller setting and give direct data results to follow the student progress. These direct data results will help improve and tailor classroom instruction to the individual student. The results will help guide professional development data dives. With this helping the overall population of the school, it will still focus on improving services for foster youth, homeless, low-income, and English learners.

A description of the extent to which all students, including foster youth, low-income students, and English learners, will have access to A-G courses approved by the University of California.

As a public charter school, New Millennium's course of study for graduation includes all of the A-G Requirements. Families and students are made aware of this through their course checklists as they start out at NMSS. All courses have been approved through UC Doorways, and students are programmed into courses meeting requirements for entry to the UC/CSU systems. Support Systems in place such as ThinkCerca for literacy across the A-G Curriculum utilized by the NMSS Teachers; One-on-One Tutoring and Small Group Tutoring after school in the Learning Loss Tutoring Program that focuses on the A-G Curriculum; APEX and Edgenuity for various A-G course curriculum and credit recovery; READ 180 to increase reading literacy and lexile scores therefore adding to the productivity in the A-G classes. NWEA Internal Benchmark System that monitors the student outcomes in regards to Math and ELA that is administered twice or more a school year depending on needs of the students.

The number of students who were identified for opportunities to retake A-G approved courses in which they received a "D", "F", or "Fail" grade in the 2020 spring semester or the 2020-21 school year and a description of the method used to offer the opportunity retake courses.

Fifteen students were identified for opportunities to retake A-G approved courses in which they received a non passing grade in the spring of 2020 or the 2020-2021 school year. They were provided several options for the format to retake the class (in seat, retake the class on APEX, or retake the class via a community college in the area). Extra support was given through Learning Loss Tutoring.

A description of how the plan and described services, and associated expenditures, if applicable, supplement services in the Local Control and Accountability Plan and Learning Recovery Plan.

The plan was to address the needs of the students by providing an on-line platform utilizing APEX and in seat courses with a teacher. We requested additional software licenses to meet the needs of the student population. APEX is an online platform which NMSS made into an in-seat class in order to provide more support with teacher guidance. On top of the on-line platform and support in seat, NMSS utilized time during break/lunch and after school in the Learning Loss Tutoring Program that focuses on core A-G courses. Having the on-line platform Edgenuity will allow students to access CTE courses, AP courses, SAT/ACT/State Testing Prep, and prerequisite courses for college.

Plan Expenditures

| Programs and services to increase or improve A-G completion | Planned Expenditures |
|---|-----------------------------|
| Provide access to more college classes and core courses at New Millennium Secondary School | \$90,964 |
| Provide 10 days of teacher and/or administrator professional development to obtain mastery of On-Line Platforms | \$45,000 |
| Provide access to CTE courses at New Millennium Secondary School | \$105,965 |
